

ORGANIZER

A.S.D P.G.S FOGLIZZESE and A.S.D VOLLEY CALUSO 2010 are two sport associations that deal with volleyball and social, and work in the territory of the lower Canavese. For years now we have been working with the municipal administrations of Foglizzo and Caluso, while only for some seasons we collaborate to manage the youth sector, both female and male.

Of these associations are about 150 members, mainly aged between 6 and 20 years, divided into the different teams.

The staff and the managers have always worked on a voluntary basis, distinguishing our associations, which prefer to promote attention and hospitality towards everybody without neglecting the quality and excellence of the activities carried out. About ten highly qualified coaches work for us, which are always helped by a graduated in sports science.

The attention at our territory and the collaboration with the local administration can be see by sharing training courses for the athletes, but even for the coaches, and with the creation of relationships which as a goal tend to allow to practice sports even for who has conditions of social and economic hardship. Because sport is an incentive to achieve better results, and it represents a social redemption to create relationships based on respect and mutual aid.
